 - **Duets/Trios:** Slightly less per dancer
 - **Groups:** Lower rate per dancer, cost shared among all team members
- **Please Note:**
- A **small studio markup** is applied to these fees to cover the behind-the-scenes work involved in:
 - Booking competitions

 - Communicating with competition staff
 - Finalizing music, routines, and paperwork
- This markup helps support the time and resources required to offer a polished and professional competition experience for our team.

Competitive dancers are **expected to remain committed** to the full season. Monthly payment plans are available, but **first and last month's tuition is due at registration**, and families are expected to follow through with the full year. This commitment allows us to create polished routines, support every dancer, and maintain the integrity of the team.

****Monthly Billing Schedule****

To ensure smooth operations and timely facility payments, **all monthly tuition payments will be billed on the 25th of each month**, for the upcoming month's classes. This advance billing allows enough time for processing and ensures that the studio's rent — which is due on the 1st — can be paid promptly.

We appreciate your understanding and support in keeping everything running seamlessly!
